

Fistula Diaries

DR WESTONE KHISA
with
DR SABINA WAKASIAKA

Fistula Diaries gives an account of women living with fistula before and after surgery. It is written in narrative form and intended for every person with a heart to love and be loved. The authors have presented captivating stories of women who have journeyed with fistula in their private and public lives. Health Care Providers have also spoken about their experiences working in this unique field. No doubt, the stories in this book will make readers drink our passion and join the conversation that will help bring to an end, a chapter that should never have been written for women anywhere on planet earth. In the end, we look forward to an agitated reader whose desire for action will illuminate the world to stand up and end fistula in Africa.
